

ALL DAY: · Do not park and abandon vehicles, even for a minute, in the front circle; it's a **FIRE ZONE** · Turn the Key; Be Idle Free - by law, standing vehicles can only idle 3 minutes. Do not use teacher parking or playgrounds for parking. ·

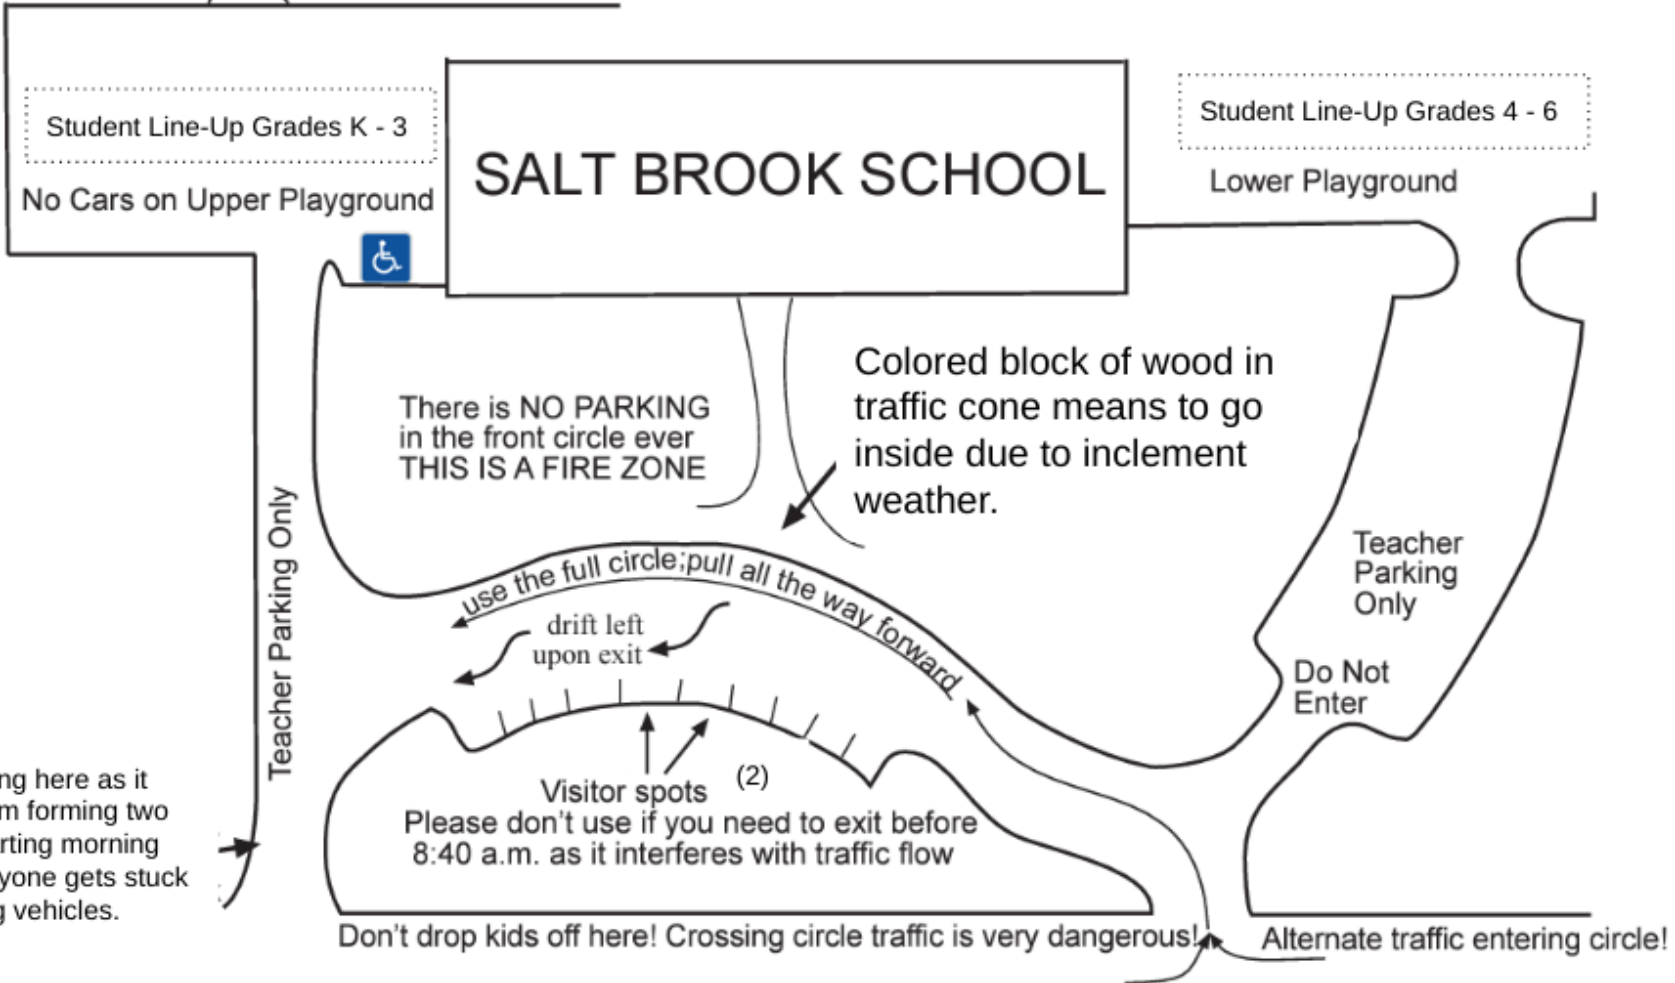

MORNING:

- **FRONT CIRCLE INFORMATION: Morning Drop Off** (8:15 a.m.-8:30 am)
 - Pull your vehicle up as far forward as you can, either to the top of the circle or to the car in front of you. Don't stop halfway - this incurs an unnecessary delay for the vehicles behind you.
 - Have children prepared to exit. · Children must exit the car to the right, onto the sidewalk. Drivers should not exit their vehicles or loiter.
 - Vehicles should exit the front circle area carefully and promptly. · Drift left as you exit as this allows a second line of cars to pull up to the curb while traffic merging onto Maple Street clears.

- **WILLOW STREET INFORMATION: Morning Drop Off** (8:15 a.m.-8:30 am)
 - Drop Off Area continues to be accessible, up to 8:30 a.m., for vehicles to drop off children and utilize the turnaround at the bottom of the driveway.
 - No Parking and No Stopping or Standing restrictions remain in place.
 - **No left turn** out of Willow Street
 - Hours: 7:30 a.m. - 9:00 a.m. & 2:30 p.m. – 4:00 p.m.
 - This expedites vehicles leaving Willow Street during school rush hours.
 - **Gate Closure**
 - During both school hours and after hours access past the gate will be permitted only for employees and deliveries.
 - **Vehicles are not permitted in this area during school hours or dismissal time.** Visitors must use the front door and parking areas for access.

AFTERNOON: · Do not use the teacher parking lots or playgrounds for parking. · From 2:30-3:30 p.m. **the front circle is CLOSED** to non-bus traffic. **Parking for afternoon pick-up is off-site ONLY.** There is additional parking on Maple Street alongside the circle at this time.

WILLOW MORNING DROPOFF

There is no parking here as it prevents cars from forming two lanes when departing morning drop off, i.e. everyone gets stuck behind left exiting vehicles.
